## HEART THRILLING GEMS.

THE TEACHER.

The physician keeps whole the tem-  
ple in which dwell the mind and soul.  
The priest fixes the vision on that  
future life in which we believe will be  
shown the fruits of this one. The  
statesman shapes the policies of na-  
tions and helps to preserve on earth  
peace and good will. The musician and  
the artist are the interpreters of the  
divine in human life and reveal to men  
the harmonies of Nature. The mother  
is the central figure of Christian civil-  
ization; over the whole world and  
throughout all human interests her  
love brings earthly life nearer to the  
heavenly, her touch soothes pain and  
her smile gladdens joy. Of the nature  
of all these the teacher partakes. In  
a life of service the teacher lends a  
hand to make youthful bodies strong  
for the conflict; to keep youthful  
minds facing the future and open to  
the truth in whatever form it comes;  
to create with youthful ambitions a  
responsibility for citizenship and a  
readiness to meet social obligations; to  
attune youthful tastes to the sweeter,  
deeper tones of life's symphony; and, in  
spirit of deepest reverence, to touch  
youthful lives with a love that shall  
go with them through pleasant path-  
ways into the rarest fields of life and  
conduct.—State Superintendent Payson  
Smith, Maine.

THE THINGS I MISS.

An easy thing, O Power Divine,  
To thank Thee for these gifts of Thine!  
For summer sunshine, winter's snow,  
For hearts that kindly thoughts that  
glow,  
But when shall I attain to this—  
To thank Thee for the things I miss!

For all young Thayer's early gleams,  
The dream of joys that still are  
dreams,  
Hopes unfulfilled, and pleasures known  
Through others' fortunes, not our own,  
And blessings seen that are not given,  
And never will be, this side of heaven.

Had I, too, shared the joys I see,  
Would there have been a heaven for  
me!  
Could I have felt Thy presence near,  
Had I possessed what I held dear!  
My deepest fortune, highest bliss,  
Have grown perchance from things I  
miss.

Sometimes there comes an hour of  
calm;  
Grief turns to blessing, pain to balm;  
A power that works above my will  
Still leads me onward, upward still;  
And then my heart attunes to this—  
To thank Thee for the things I miss.  
—Thomas Wentworth Higginson.

NEVER WEARY OF WELL-DOING.

Mark how nature never wearies  
Of the fabric that she weaves,  
How the flowers bloom each season,  
How the trees renew their leaves.

Not a blossom, not a sunset,  
Not a crystal of the snow,  
Is so fashioned just as carefully  
As in ages long ago.

Pathfully each task fulfilling,  
Faith and love and joy and sky  
Vow weary of well-doing  
As the centuries go by.

'Tis the same through all creation;  
Every living thing has seen  
In sublimity to the working  
Of the great "Divine Plan."

When the smallest little insect,  
With an office to perform,  
Is a craftsman, slayer and savior,  
Be a steadfast will upholders.

Never weary of well-doing,  
Through its days be long or brief,  
And its work a tiny ant-hill,  
Or a wondrous coral reef.  
—Felix Cresset, in Living Church.

A SLIGHT MISTAKE.

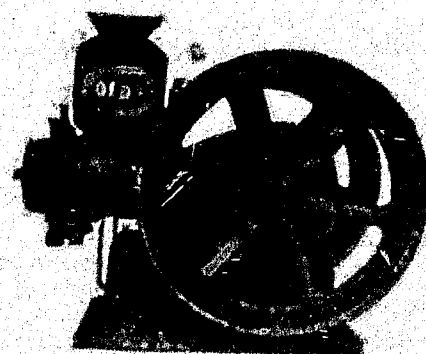

"He's always been growling, but of  
late he is getting snappish."  
"Made's you better have him killed!"  
"Have whom killed?"  
"Aren't you talking about your  
dog?"  
"No, my husband."—Baltimore  
American.

## THE OLDS SYSTEM OF ELECTRIC LIGHTING

Makes it possible for the Farmer and all persons remote from  
centers to have the convenience of Electricity. Don't cling to  
the unsafe, unhealthy, unhandy kerosene lighting when you can  
have electricity.

AND THEN ALONG WITH THE LIGHTING QUESTION COMES  
THAT OF

### WATER SUPPLY

The Pneumatic Water Supply Systems

There is no reason why the farm and village home should not  
be equipped with bath-room and lavatory and have running wa-  
ter supplied to the kitchen, barn and lawn the same as the city  
home, and this without a great expenditure of money; in fact the  
expense is nothing when the convenience, safety and labor saved  
are considered.

THE QUESTION OF FIRE PROTECTION ALONE IS OF SUFFI-  
CIENT IMPORTANCE TO WARRANT THE INSTALLATION.

I install each of these systems and will be glad to explain and  
give prices to any interested.

## RUMFORD.

The Y. P. C. U. of the Universalist church will hold an oyster supper on Tuesday the 12th of this month at the church vestry.

On Thanksgiving night at the Mechanics' Institute Building a very informal popcorn social was held. Quite a large number were present. An orchestra of four pieces furnished music and gave a short concert the first of the evening, this was followed by a reading from Mrs. Dickey. After this the large lounge room was cleared and used for dancing, the floor was perfect and music fine, and every one enjoyed the dancing immensely. Large plates of popcorn and apples were placed around the room in various places near at hand which were very frequently visited by both young and old. The affair was most homelike and enjoyable. It has been expressed by a large number of those present that these socials will be repeated frequently during the winter.

Dr. Rowe has moved his family into the G. W. Stephens house on Prospect Avenue.

The son of Morris Marx was injured by an automobile on Monday, while being out with a crowd of boys waiting for a chance to catch a ride on a team. The automobile of R. B. Swain came up slowly, but the boy was not looking and Mr. Swain did not see him, until he was knocked down by the machine and the hind wheel ran over his head and face, bruising him quite a good deal. It is thought that he was not severely injured at this writing. Mr. Swain was very much grieved over the accident and did everything in his power to assist the boy, but from the lad's statement he was in no way to blame.

It is understood that there was some railing going on in several of the markets on Wednesday evening before Thanksgiving and that some of the officers got wind of it and entered to stop it and one of the participants was arrested and it is said he took refuge in an onion barrel.

Mr. and Mrs. Geo. Locke left Monday for California, where they will spend the winter.

Mrs. Emily Atwood, widow of the late Chas. Atwood of Backfield died Monday morning early at the home of her son, F. H. Atwood. Mrs. Atwood was 81 years old and her home was in Backfield until about four years ago when she came to live with her son, and his family in this town. She leaves two sons, F. H. Atwood, of this town, and Mr. Ed Atwood, of Nashua, N. H. Prayers were held at Mr. Atwood's residence on Franklin street, Monday afternoon at one o'clock, conducted by the Rev. Mr. Pottle, and the body was taken to Backfield, Tuesday morning for burial.

Dr. E. Hayes and family have been on a visit to Hingham. Morton Titus of Portland has been substituting as teacher in the office of the M. C. H. B. during Mr. Hayes' absence.

Mrs. Emily Felt of Bryant's Pond has been the guest of Archie and Lena Felt for the past week.

The Baptist Ladies' Aid will hold a Christmas sale and supper on Friday of this week at the vestry. The supper will be served from 5:30 to 7:30 and will consist of chicken pie. Everybody welcome.

Mr. Sparks of Malden is visiting here. Alfred Sparks, on Franklin street for several weeks.

Mrs. Caroline Kenniston spent a few days in Auburn last week, visiting her sister.

Mrs. Grace Mills spent Thanksgiving with her parents, Mr. and Mrs. P. Mills.

of Woodford, Me.

Mr. and Mrs. Lewis Irish and son, Benjamin, were entertained at Thanksgiving dinner by Mr. and Mrs. Horace Irish of Backfield.

Joe Clark spent Thursday and Friday at Bath, the guest of his sister, Mrs. Marston.

Mr. and Mrs. Heacock and Miss Melie Heacock of Phillips were the guests of Dr. and Mrs. Shreeley, over Thanksgiving.

Miss Florence Hinds spent the week end with her parents, at No. Livermore. Mr. Richard Harriman, the well known stone carver died suddenly on Thanksgiving day of heart failure. He leaves one son and a widow to mourn his loss. The funeral occurred on Saturday at East Peru.

Miss Marion Poor of Andover spent Sunday with Miss Hazel Merrill.

Mrs. R. L. Melcher is in Andover visiting friends this week and Mr. Melcher is in camp with F. P. Thomas.

Geo. Pettigill left last week for Bangor for a short time.

At present Mrs. Marion Walker has the highest bowling score for the ladies, having bowled 103. There has been quite a lively contest among the bowlers to see which one should attain the highest score.

Miss Marie Bartlett is playing the first three days of the week at Cheney Opera House, and is much appreciated, as she is a musician of considerable ability. Miss Bartlett will go to Boston after the holidays to continue her studies on the violin.

Mrs. Chas. Towle left Saturday for Dixfield where she will make her home in the future, Mr. Towle having gone there some months previous and gone into business. Miss Florence Bennett began her duties the first of the week in the Rumford Falls Trust Company.

Mrs. Nellie Perry is on the sick list this week and is unable to be at her duties in the store of Grace W. Mills & Company.

## A Charming Woman

is one who is lovely in face, form, mind and temper. But it's hard for a woman to be charming without health. A weak, sickly woman will be nervous and irritable. Constipation and kidney troubles show in pimples, blotches, skin eruptions and a wretched complexion. But Electric Bitters always prove a godsend to women who want health, beauty and friends. They regulate the stomach, liver and kidneys, purify the blood, give strong nerves, bright eyes, pure breath, smooth, velvety skin, lovely complexion and perfect health. Try them. 50c at Chase, Fernald's, Nathan Reynolds', Captain H. J. Reynolds' of Hildonville, C. A. Gardiner's of Dixfield.

## THE BEAUTIFUL BRIDGE

Popular love of art may be carried too far. The author of "Charles Bonhoeffer, Constable of France," tells us that on the occasion of the war, some of the citizens refused to secure their safety by taking the advice of their captain, Bezo de Ger, and cutting the bridges Ponte Quattro Cap and Ponte Bello. The people declined on the ground that they were "too beautiful."

# HEADQUARTERS FOR Practical Christmas Shoppers

I promised to give the Citizen readers this week a brief account of my preparation for the Christmas season, but brief indeed must be any attempt at enumeration of the many things that may be found at my store for Practical Presents.

I do, however, want to emphasize the fact that my large store is filled to the ridge-pole with new goods selected for the Christmas trade. I have spent much time in anticipating the wants of old and young and the thought of things practical have been at the fore front ever and always.

And you may be assured that whatever you purchase here during the Christmas season will represent full value for the amount paid and that you will take home something that will be appreciated for its usefulness and practicability.

Yes, we have the famous STETSON hats in felt and the LAMSON & HUBBARD in Derby. None better.

## HARDWARE & FURNISHINGS.

Our entire upper floor is given up to this department. We would invite attention to the famous Glenwood Ranges, also to our oil heaters. By the way come in and see the newest thing on the market, in the Florence Automatic, no wick, no odor, half the oil, and heat to burn.

## GROCERIES.

Save a man money and back he comes, a woman, too, for that matter. Here in our grocery department is where we save our customers money and why shouldn't they come back? They do.

## LUMBERMEN OUTFITS.

Now you are talking. We are headquarters personified. We cater to this trade and the stuff we have sent out this season is a caution.

We have a plenty more however. Lumbermen, come in!

## DRY AND FANCY GOODS.

No introduction necessary. The public is well aware that we have always a complete stock and it was never more complete than now.

Below you will find a partial list of the many smaller articles designed for suitable Christmas gifts. With more time and space this list could be multiplied many fold.
